Objective

A self-driven and curious 3rd-year Computer Science student at JUET Guna with a passion for web development and machine learning. Enthusiastic about solving real-world problems through code and continuously upgrading technical and creative skills.

Education

10th - Lawrence and Mayo Public School, Kota (2019–2020)

12th - Veena Adarsh Senior Secondary School, Kota (2021–2022)

B.Tech - Jaypee University of Engineering and Technology, Guna (2023–2027)

Skills

- **Programming:** C, C++, Python, Java
- **Web Technologies:** React.js, HTML, CSS, JavaScript, GSAP, Git
- **Tools:** Unity, MySQL, VS Code, Firebase
- **Machine Learning:** NumPy, Pandas, Scikit-learn, Jupyter
- **Other:** Web Development, UI/UX Design
- **Concepts:** Data Structures and Algorithms

Projects

- **E-commerce Region-wise Sales Analysis:** Analyzed regional sales data using Python (Pandas, NumPy) to identify trends and visualize insights, improving decision-making.
- **AI-Powered Competitor Price Tracker:** Developed a system to monitor competitor prices using web scraping and machine learning for pricing analysis.
- **Customize Your Own Pizza:** Designed a visually appealing pizza customization website with animations and interactive UI.
- **Fraud Detection System for Digital Payments:** Built a machine learning-based fraud detection system using XGBoost and LightGBM with rule-based logic.

Achievements

- Secured **Top 10 position** in National Hackathon **Codesrijan**
- Completed Technology Job Simulation by Deloitte via Forage (June 2025)
- Completed Cybersecurity Analyst Job Simulation via Forage (April 2025)

Internships

- **Web Development Intern, Vault of Codes (June 2025):** Developed and deployed a pizza customization website using HTML, CSS, and JavaScript.
- **Digital Marketing Intern, InAmigos Foundation:** Created content and improved engagement through campaigns.
- **AI/ML Intern (Virtual Internship):** Worked on real-world ML projects including preprocessing, model building, and evaluation.
